Connecting Students with Opportunities

Powerful tools to support underserved students

Colleges that Meet Full Need

Some colleges commit to meeting 100% of a student's demonstrated financial need, making college far more affordable than many families expect. We've gathered a list of these institutions to help you guide students toward real options.

Free College Fly-In and Low-Cost Summer Programs

Many colleges offer fully funded fly-in programs for students who may not be able to visit campus. In the summer, they also provide affordable pre-college programs. We've compiled these opportunities in one place to make it easy for students to access.

Appily Serve: College + Military Planning

Appily Serve allows students to build a college plan with military support. From earning a degree debt-free to gaining specialized training, students can compare pathways and make choices that align with their future.
