

Simplify the university admission process for your students

With Match, students receive university admission and scholarship offers in as little as two weeks without submitting any applications.

The Match Difference

Data Privacy

Student profiles are anonymous to universities until they indicate interest in the university.

No Applications

Universities send real admission offers to students based on their simple Match profiles.

Monthly Offers

Universities review student profiles and send offers to students every month.

No Rejections

Students are only notified of acceptances, creating a more positive experience.

How It Works

- 1 Students create simple profiles that are certified

- 2 Universities send admission and scholarship offers

- 3 Students choose which offers interest them

Quantifiable Impact
