Match Global

Be MATCHed, not measured.

Built for **students**. Backed by **counselors**.

The traditional admissions process is often lengthy and complex, requiring your students to spend months preparing applications and essays with no guarantee of acceptance.

With Match, your students can receive university admission and scholarship offers in a matter of weeks without submitting any applications. Plus, Match is flexible – it can easily complement your existing counseling program, whether you choose to use it with your entire cohort or just a few students. Best of all, there's **no cost to your students or your school**.

The Match Difference

No Stress

Student profiles are anonymous to universities until they indicate interest in the institution.

No Applications

Universities send real admission offers to students based on their simple Match profiles.

No Rejections

Students are notified only of acceptances, creating a more positive experience.

Counselor Approved

Our counselor portal allows you to check your students' progress every step of the way.

How It Works

1 Students create simple profiles in less than 30 minutes

2 Universities send students admission and scholarship offers

3 Students choose which offers interest them

Remarkable Results

As of June 2026

20,000+
participating secondary schools

762K+
