Introducing an Enhanced Admin Dashboard Overview

Actionable insights into community member behavior (prospective, admitted, current student) along with student mentor activity to inform and inflect your recruitment and student support strategies.

Gauge Student Health

View student activity, such as log-ins, chats, and posts, to identify engagement patterns and anticipate yield

Monitor Trends by Student Type

Understand activity by member type to see how students (e.g., admitted or deposited) interact with your site in different-in-kind ways*

Build on What's Working

Use community insight around student views and reactions to build on topics that resonate, and tailor future content

Meet Student Needs

Track student onboarding to celebrate engaged students and support those who might need extra hand-holding

Measure Efficacy of Student Mentors

See student ambassador activity, such as new connections and posts created, in order to identify top performers and areas of opportunity

Track Success of Invites/Marketing

View your percentage to goal across multiple milestones to measure effectiveness of onboarding strategy
